My Dear Unwin

I have in my hill country quite completed a job that I have long felt to be incumbent no less than the revisal of the Raiders. I'll send a revised copy by this mail. There are not many serious changes but the whole book is immensely improved in detail.

Perhaps the corrections could be incorporated in the 7th edition along with the glossary and then it could be announced as revised by the author and a glossary by Mister Patrick Dudgeon of Cargen Galloway, at any rate the corrections can be made in the next edition printed.

I would like the corrections made in the Illustrated Stickit to be also made in the ordinary editions. Be good enough therefore to get from R and R Clark the proof sheets corrected by me which you have sent to them and I shall get to the corrections transferred to a copy of the current edition for incorporation with the next edition printed.

I should like the illustrated 5 edition to count as one of the editions (the 8th) and then the next to count the 9th. That is both true and proper.

with kind regards

faithfully yours

SRC.
