My dear Unwin

You are raking ahead with the Raiders now. Long may it continue. You will soon get through at this rate. I hope to send the last of the MS retyped and corrected by Wednesday so that there will be no hiatus in the work.

I send you the photograph of Moxon Cooks picture of the hill country under snow which I should like to use as a frontispiece if we can arrange it. Moffat who has so beautifully photoed the picture offers to produce 300 like that [ ]for £5. I should be glad to go halves with you so that we could use so beautiful and true a transcript from my own country.

with kindest regards

faithfully yours

SRC.

Memo: This is so well done that it might be useful and were even more expeditious to get it all done like this as far as you have the MS the remaining 3/5 I am attending to here and shall have newly typewritten.
